CHIEVERNARIAM AVIMOR SE'S INVICORATING CORDIAL

TOR GENITAL DEBILITY, IMPOTENCY, INCONTINENCE, OR NOCTURNAL EMISSIONS, &c.—The astonishing success which has attended this invaluable medicins, for Loss of Muscular Energy, Physical Lassitude, and General Prostration, or any of the consequences of youthful indiscretion, or indigence of the passion in riper years, renders it the most valuable preparation ever discovered. In fact, as a remedy for the above complaints, it stands unrivalled and alone. There is no other reliable remedy, or any that has authentically received the sanction of the Medical Faculty. The WONDERFUL VEGETABLE PRCDUCTION of which this medicine is composed has been tested, and its virtues proclaimed, by the highest names of the faculty of London, Paris, and the chief cities of Europe, as well as by eminent Physicians in this country. It is the only infallible remody for NERVOUS, HEAD, and MIND COMPLAINTS—the mental physics so long sought for and never before found—the ouly agent that can administer to MIND DISEASES. It will remove all nervous affections, DEPRESSION, EXCITEMENT, incapacity to study or business, loss of MEMORY, CONFUSION, thoughts of self-destruction, fear of insanity, &c., It will restore the appetite, renew the health of those who have destroyed it by sensual Excesses or evil practices. It has been said by seome that these disorders, emissions, &c., were incurable. This, however, is not the fact.

DR. MORRE'S INVIGORATING CORDIAL has cured, and is constantly curing, these complaints—relieving the mental and bodily incapacity of the unfortunate sufferer, as

and is constantly curing, these complaints—relieving the mental and bodily incapacity of the unfortunate sufferer, as the following testimony of the names received will conclu-

the following testimony of the names received will conclusively show:

Dr. Woodward, of ——, Masrachusetts Insane Hospital, writes of one of his patients being cured by using this Cordial thus: "It gives me pleasure to inform you that one of my patients, while in Boston, procured some of your Cordial. He tells me that he has not had a single emission since he commenced taking it, while before he had two or three a week. When he applied to me," says Dr. W., "I thought it hardly possible for him ever to regain his full strength. I prescribed the usual medicine used in those cases in the hospital, but they had no effect. In the mean time he purchased some of your Cordial, which has effected a cure I am sure no other medicine would. I shall ever recommend it, whenever an opportunity occurs."

The nature of the maladies relieved by this Cordial are

a cure I am sure no other medicine would. I shall ever recommend it, whenever an opportunity occurs."
The nature of the maladies relieved by this Cordial are generally such as to leave the publication of certificates of cures out of the question. The proprietor could produce a host of the most conclusive testimony to show that the great reputation it enjoys was not accidentally obtained, but is firmly based upon its positive and apparently miraculous virtues. In all directions are to be found the happy parents of healthy offsprings, who would not have been so but for this extraordinsty preparation. And it is equally potent for many diseases for which it is recommended.

THE MEDICAL JOURNALS
have not, in a single instance that has been authenticated,

have not, in a single instance that has been authenticated given their sanction to any other preparation for the above complaints. It has, in many violent and desperate case effected radical cures, after patients had been abandoned and their condition pronounced hopeless by medical practitioners of high professional desperate.

and their condition pronounced hopeless by medical practi-tioners of high professional character.

THE COMMON EXPRESSION
or those who have used this Extract is: "I had heard your Cordial highly spoken of, but was one of the incredulous ir coruna mignay spoken of, but was one of the incredulous in regard to its merits, having tried various medicines sold for the same purpose, (different Sarsapariilas,) without deriving any benefit. I had almost given up all hope of obtaining relief, when I purchased some of your Cordial. I had no faith whatever of its benefiting me—but it has. I feel stronger, have had no emissions since, although it is not three weeks. I am satisfied that the half a dozen bottles I took will oure me."

Ill ourse me,"

"I had consulted several distinguished lans. Some said I could not be cured; others pretthis thing and that; but I found no relief until I ed come of your Cordial. I must say it completely

Another says: "I was surprised at the effect your Cordial had. Why had I not heard of it before? It would have saved me so much expense, besides years of mental and bodily suffering."

OAUTION.—Ask for Dr. Morse's Cordial, and take no other, as there are worthless imitations which its unrivalled excellence, fame, and popularity have brought into the market. It will not hurt the most delicate female, but de good. Beware of all other Cordials, &c., and try only this. It is put up in pint bottles, with the words Dr. MORSE'S INVIGORATING CORDIAL blown on the glass. Price \$3 per bottle; two bottles, \$5; six bottles, \$12; and \$24 per dozen.

N. B.—Important advice accompanying each bottle.

MARNAGE.

Married persons, or those contemplating marriage, being aware of physical weakness, should immediately consult Dr. J., and be restored to perfect health.

DR. JOHNSTON,

Member of the Royal College of Surgeons, London, Graduate from one of the most eninent Colleges of the United States, and the greater part of whose life has been spent in the Hospitals of London, Paris, Philadelphia, and elsewhere, has effected some of the most astonishing cures that were ever known. Many troubled with ringing in the ears and head when asleep, great nervousness, being alarmed at sudden sounds, and bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

TAKE PARTICULAR NOTICE

Dr. J. addresses all those who have injured themselves by private and improper indulgences, that scoret and solidary habit, which ruin both body and mind, unfitting them for their business or society.

These are some of the sad and and the sad and solidary habit.

habit, which ruin both body and mind, unfitting them for either business or society.

These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dinness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c., &c.

Mentally.—The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion of Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

Love of Solitude, Timidity, &c., are some of the evils produced.

NERVOUS DEBILITY.

Weakness of the system, Nervous Debility and premature decay generally arise from the destructive habit of youth, that solitary practice se fatal to the healthful existence of man, and it is the young who are most apt to become its Victims, from an ignorance of the dangers to which they subject themselves. Parents and Guardians are often misled with respect to the cause or source of disease in their sons and wards. Alas! how often do they ascribe to other causes the wasting of the frame, Palpitation of the Heart, Dyspepsis, Indigestion, derangement of the Nervous System, Cough, and Symptoms of Consumption; also those serious Mental effects, such as loss of Memory, Depression of Spirits, or peculiar fits of Melancholy, when the truth is, they have been caused by indulging in Pernicious but alluring practices, destructive to both Body and Mind. Thus are swept from existence thousands who might have been of use to their Country, a pleasure to their friends, and ornaments to Society.

Society.
DR. JOHNSTON'S INVIGORATING REMEDY FOR ORGANIC WEAKNESS. OR. JOHNSTON'S INVIGORATING REMEDY FOR OBGANIC WEAKNESS.

This grand and important Remedy has restored strength and vigor to thousands of the most debilitated individuals, many who had lost all hopes, and been abandoned to die. By its complete invigoration of the Nervous System, the whole faculties become restored to their proper power and functions, and the fallen fabric of life is raised up to beauty, consistency and duration, upon the ruins of an emaciated and premature decline, to sound and pristine health. Oh, how happy have hundreds of misguided youths been made, who have been suddenly restored to health from the devastations of those terrific maladies which result from indiscretion! Such persons, before contemplating MARRIAGE, should reflect that a sound mind and bedy are the most necessary requisites to promote connubial happiness. Indeed, without this, the journey through life becomes a weary pilgrimage; the passect hearty darkenste the view; the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another becomes blighted with our own. Let no false delicacy prevent you, but apply immediately.

He who places himself under the care of Dr. Johnston may religiously confide in his honor as a Gentleman, and confidently rely upon his skill as a Physician.

TO STRANGERS.

The many thousands cured at this institution within the last ten years, and the numerous important Surgical Operations perfermed by Dr. J., witnessed by the Reporters of the papers and many other persons, notices of which have appeared again and again before the public, is a sufficient guara sty that the sufficient witness that Dr. Johnston perferent substitution within the physician.

TAKE NOTICE.

TAKE NOTICE.

It is with the greatest reluctance that Dr. Johnston permits his card to appear before the public, deeming it unprefessional for a physician to advertise; but unless he did so, the afflicted, especially strangers, could not fail to fall into the hands of those imprudent, boasting impostors—individuals destitute of knowledge, name, and character—pediars, shoemakers, mechanics, &c., advertising themselves as physicians; ignorant quacks, who keep you triling month after month, as long as possible, and in despair leave you with ruined health to sigh over your galling disappointment. It is this motive alone that induces Dr. J. to advertise, for he alone can cure you. To those unacquainted with his reputation he deems it necessary to say, that his credentials or diplomas always hang in his Office.

BOARD OF COMMON COUNCIL, Monday, August 23, 1862. Present: Messrs. Magruder, Morgan, Wilson, Bayly, Borrows, Towers, Hill, Wirt, French, (President,) Gordon, Thornley, Page, and Whee-

The CHAIR laid before the Board a communi cation from the Mayor advising the Board of the approval of certain bills and resolutions; which was read and laid on the table. The bill from the Board of Common Council

for the relief of John Fletcher was taken up, read three times, and passed.

The Board of Common Council having insisted on their amendment disagreed to by this Board to the resolution directing a further distribution of the Corporation plat-books, it was, on motion—

Resolved, That this Board further insist on its disagreement to said amendment. Mr. THORNEY, from the Committee of Claims, sported a bill entitled "An act for the relief of

James Major;" which was read three times and Mr. BAYLY, from the Committee of Claims, re ported a bill entitled "An act for the relief of

Benj. Lanham ;" which was read three times and Mr. BAYLY, on leave, introduced a bill entitled "An act making an appropriation for gravelling Sixth street west, from K street north to New York avenue;" which was read three times and

passed. Mr. Morgan presented a petition from John Brent and others, praying that the Rev. James Trusty, of the Methodist Church, (colored,) may be permitted to reside temporarily in this city without conforming to the laws of the Corpora-

tion in reference to colored persons; which we read and referred to the Committee on Police. Mr. MAGRUDER, from the Committee on Finance, reported without amendment the bill from

the Board of Common Council making appropria-tions to defray the general expenses of the Corporation for the year ending the 30th June, 1853, and it was then read the third time and passed. The bill to provide for the appointment of a Tax-Clerk and Book-keeper, and for other pur-

poses, having been made the special order for this day, was taken up for consideration.

Mr. Magruper then moved to fill the first blank in the bill with \$1,500, as compensation

to the Register.

Mr. MAGRUDER then moved to fill the last blank with three per cent. to the Collector for the collection of taxes. Mr. Hill moved two per cent.; but, before any

question was taken thereon, the clause relating

to the Collector was, on motion by Mr. Towers struck out of the bill. Mr. Hill then moved to further amend the bill by adding to the clause in the first section, which requires the Tax-Clerk to settle the accounts of the Collector, the words "and that he be required to report to the two Boards a full statement of said accounts on or about the first of July and

first of January of each year." And, the question being taken, it was decided n the affirmative. The bill, as amended, was then read the third

time and passed. Mr. Wilson, on leave, introduced a bill entitled "An act for the construction of a sewer to drain the east end of the alley in square 254;

which was read three times and passed. Mr. Wilson, from the Committee on Improve ments, reported without amendment the bill from the Board of Common Council authorizing the paving of the carriage-way of Louisiana avenue, etween Seventh and Ninth streets west.

The CHAIR laid before the Board the following communication from the Mayor; which communication was read and referred to the Committee

on Police, and ordered to be published with the proceedings of the Board : MAYOR'S OFFICE,

Washington, August 28, 1852. To the Board of Aldermen and Board of Common Council: GENTLEMEN: I lay before you a communication which I have this day received from the Surveyor of the city, in which he states that it is impossible for him to discharge the duties required of him by the act of the 5th June, 1852, amending the act relating to the appointment, duties, and powers of the Board of Health. Under this act, before the Mayor can direct the removal of any nuisance which may be reported to him by the huisance which may be try to the Board of Health, as existing upon any lot below the gradation of the street, it is made his duty to call upon the Surveyor to examine and report whether the nuisance shall be abated by drainage or filling; and, after receiving this report, the Mayor may then cause the removal of the nuis-

ance in the manner indicated therein.

There are now in the hands of the Surveyor twenty-two cases of nuisances, in different parts of the city, referred to him by me for his action under this law, and many of them requiring immediate attention, but which have not been reported upon, and consequently cannot be re-

which exist to its efficient execution.

Respectfully, &c., JOHN W. MAURY.

SURVEYOR'S OFFICE, Aug. 23, 1852. Sin: Under the amendatory act approved June 5, 1852, of the act relating to the appointment, powers, and duties of the Board of Health, there has been referred to this office twenty-two cases for examination and report. Of this number but two or three have been reported on. From the fact that my whole time, as also that of the assistant Surveyor, is fully and laboriously occupied in the discharge of the various duties con-nected with this office, I find it impossible to make the necessary surveys required by the act referred to without delay, unless all business of the office is for the time suspended. I therefore most respectfully request your instruction in relation

to this matter. I am, respectfully, your obedient servant, H. W. BALL, Surveyor.

To J. W. MAURY, Mayor. Mr. Morgan presented a petition from James Robertson, asking the protection of the Corpora tion from insult and abuse in the public streets by rude inhabitants of the city; which was read and referred to the Mayor, to take such order

thereon as he may see fit. And the Board adjourned.

Cotton and Australia.

The London News has a long article upon the subject of cotton. It regards it as a great misfortune that England should be dependent entirely on America, for an article of such immense importance to so large a portion of her people. It says that the cotton manufacture has, since the beginning of the century, added two millions to the permanent population of the country—that Eugland has been at war with America, and may be again-that in such an event, the supply would be cut off, and all this population thrown out of employment-that besides, Virginia, North Carolina and South Carolina are exhausted, and all the other cotton-growing lands of the country will be in their turn-that Great Britain ught to be dependent on no foreign State for a supply of cotton, and that Australia is the proper region for its cultivation.

EDITORS: About midway between Wilmington and Westchester, at one of the most delightful spots you can conceive of. I am at present, endcavoring to send you a few lines. Steamboat Explosions, Burnings, and Collisions. MESSRS. EDITORS: In view of the recent terible steamboat disasters, by explosions, fire and collisions, I have been revolving in my mind some preventive means for the safety of passengers. That that suggests itself as the best is: Let each steamer be a tow-boat, with a passenger-boat in tow, so that if the tug or tow-boat should explode, take fire, or come in collision with another boat, the passenger-boat would be instantly detached, and all would be safe! If it should be objected that this method would be too expensive. I would answer that, the passenger-boat not being racked by the machinery, and otherwise safe from ordinary dangers, would last three or four times as long as boats now do, and by a sufficiently powerful engine in the tow-boat, as great (or greater) speed could be obtained as by the present boats. This plan, I think, was once used, before, however, steam navigation had acquired the excel-

out with the hope of their being improved, and with a conviction if acted on, they will save a vast number of valuable lives.

Nearly half of the pamphlet edition of General Pierce's biography is devoted to his illustrious father. The redundant virtues of the sire are to supply the deficiencies of the son. Very good so far. But upon examining the records of Hampshire, it turns out that the senior Mr. Pierce was a bitter black-cockade Federalist-au 'alien and sedition law'' man-and that he voted to silence a Republican preacher, for having omitted in his prayer before the Legislature to pray for old John Adams, according to the terms of the Sedition Law. In 1827 he was Governor of New Hampshire—and by the high praises he then lavished upon the elder Adams, it would seem, he was still as much a Federalist as ever. We more than half suspect that the suggestion is founded in truth, for we have seen many displays equally revolting from their vulgarity, meretriciousness, and awkwardness.
